

The figure shows a technical drawing of a RIMSTOCK profile. The profile is a curved line representing the shape of the stock. Below the profile, there are four vertical lines representing different levels of the stock, labeled e+15, e+20, e+25, and e+30. A horizontal line at the bottom is labeled CL. To the right of the drawing is a table with two columns: INSET and MAX P.C.D. The table has five rows, with the first row being the header and the subsequent four rows containing data for different levels. Below the table is a revision table with columns for DATE, REV, REVISION, DR, and A. The RIMSTOCK logo is also present.

INSET	MAX P.C.D
+15	114.3
+20	114.3
+25	114.3
+30	114.3

DATE	REV	REVISION	DR	A
